## Brownfield Redevelopment

LOCATION: Läggesta, Sweden

CLIENT: Skanska

TYPE: Masterplanning

STATUS: Under Assessment

DATE: 2007

A masterplanning sketch for Skanska Nya Hem and the Israeli owners that examines opportunities for a former textile related industrial site on the shore of Lake Malar, near the historic town of Mariefred.

It contains new public spaces and a waterfront promenade and boating facility.

Passing along the shore is a Museum railway that could be examined for conversion to a Light Railway that connects the villages and towns along this lakeshore to the Läggesta Railway Station and Mariefred.
